to reach for the stars*

# Protecting our future; Supporting Aerospace Education

**The Air Force Association (AFA)** is an independent non-profit (501(c)3) organization that supports the United States Air Force, and the need for aerospace power as a strong factor in our Nation's defense.

**The Tennessee Valley AFA Chapter** is made up of military and civilian members who live and work across Northern Alabama. With approximately five hundred members (and growing), the chapter, much like at the National level, promotes a community understanding of, and support for, a strong air, space, and cyber defense. Our Chapter's top priority is investing in the future of young men and women who are interested in joining the military and supporting the aerospace defense of our nation.

Our youth are our Nation's future. AFA members work with students and teachers to develop and challenge young

minds in meeting tomorrow's defense needs. All of the funds generated from Community Partner membership fees are solely dedicated to supporting aerospace education. Be it through scholarship programs, Cyber-Patriot, (global cyber security competition), awards and recognition of outstanding teachers, or promoting aerospace education through teacher workshops, the Tennessee Valley Chapter is making a difference in our community.

By joining the AFA as a Community Partner, you are expressing your support for a strong defense sufficient to ensure this Nation's peace and security. But most of all, through your Partnership, you are enabling the Tennessee Valley Chapter to continue its efforts to meet the needs of our youth through aerospace education programs.

Three levels available to participate as a Community Partner

**BASIC** – \$90/year

**WINGMAN** – \$250/year

**ACE** – \$500/year

At each of these levels you will receive:

- Community Partner Plaque and Decal indicating your support
- Citation on the Chapter web site, Facebook page, and in Quarterly Newsletter
- Membership in the AFA with all its benefits
- Subscription to the highly-acclaimed, Air Force Magazine

We hope you will join in supporting the aerospace education of our youth across the Tennessee Valley.
